	§	**Resolution 2025-03**
County of Ellis	§	

A Resolution by Ellis County Commissioners' Court In Support of the Creation of Emergency Services District 12 (Milford)

WHEREAS, private citizens across Texas with a calling to serve have organized volunteer fire departments to protect the lives and property of their neighbors; and

WHEREAS, volunteer firefighters and other private first responders do their best to purchase and maintain the equipment they need to effectively serve, but costs can often be prohibitive for departments operating on a volunteer basis; and

WHEREAS, to help rural communities improve emergency response, the Texas Legislature first authorized the creation of Rural Fire Protection Districts in 1949 and then consolidated these services into Emergency Services Districts in 1987; and

WHEREAS, an Emergency Services District is authorized by the Texas Constitution to levy a tax burden on local citizens to help emergency responders cover the costs of their services; and

WHEREAS, the Milford Volunteer Fire Department and local citizens have determined that the best way to improve the coverage, response times, and equipment of their emergency services is to organize a new Emergency Services District in Ellis County; and

WHEREAS, the Ellis County Commissioners' Court accepted a petition and held a public hearing to create Emergency Services District 12 (Milford) on January 21st, 2025, ordering an election to be held for the same on May 3rd 2025;

NOW, THEREFORE BE IT RESOLVED that the Ellis County Commissioners' Court expresses its full support for the creation of Emergency Services District 12 (Milford) and has authorized the Elections Administrator to hold, notice, and administer an election for the creation of ESD #12 by eligible local voters on May 3rd, 2025.

- A preliminary plat consisting of 100 residential lots and four (4) open space areas and appears on this agenda as Item No. 1.7.

  - Their request seeks to instead adhere to the County's pre-September 2023 standards consisting of six (6) inches of lime stabilization and six (6) inches of concrete.
- As part of the variance request, the applicant submitted a letter from their attorney (Attachment No. 2), a preliminary geotechnical report (Attachment No. 3), and a technical memo regarding the expected trip generation within the proposed development (Attachment No. 4) indicating reasons to support the requested variance.

NOTICE REQUIREMENTS

Section VIII (A) requires notice to be sent to property owners within 200 feet of the property with the requested variance at least ten (10) days before the meeting date. Below is a summary of the satisfaction of that legal notice requirement.

DATE OF NOTIFICATION	NO. OF LETTERS
2/22/2025	Fifty-six (56) letters

PERTINENT REGULATION(s):
Below is a summary of minimum County standards and the proposed request:

Relief Sought From:	County Development Standard:	Applicant's Request:	Difference:
Required cement-stabilized flexbase	*"Compacted cement stabilized flexbase shall be required below the concrete surface..."*; 6-inch requirement - Vol. III, Sec. IV (D)	Not requiring cement-stabilized flexbase, based on existing soil conditions & geotechnical report.	Not providing the 6-inch compacted cement stabilized flexbase as required by the County.

Section VIII (B) relief from the rules and regulations:

1. *There are special conditions affecting the land involved such that the strict application of the provisions of this Order would deprive the applicant of the reasonable use of his land; and,*
2. *That the relief is necessary for the preservation and enjoyment of a substantial property right of the applicant; and*
3. *That the granting of the relief will not be detrimental to the public finances, health, safety, or welfare, or injurious to other property in the area; and,*
4. *That the granting of the relief will not have the effect of preventing the orderly subdivision of other land in the area in accordance with the provisions of the Order.*
5. *That the situation causing the hardship or difficulty is neither self-imposed nor self-created.*

ANALYSIS:
To provide some background and history, this new regulation became effective on September 1, 2023, after numerous conversations with staff and other engineering and geotech professionals at multiple workshops during the past several years, as the Commissioners Court expressed a strong desire to upgrade the road construction standards throughout the County after repeated road failures on county-maintained roads and directed staff to research alternatives to help minimize these road failures.

The outcome of those meetings and research resulted in a 6-inch cement stabilized flexbase being required as part of the county's updated development regulations, accomplishing the goal of enhancing road construction throughout the county. Texas Local Government Code §232.002(4) allows the County to set road standards, stating *"the commissioners court may adopt, based on the amount and kind of travel over each street or road in a subdivision, reasonable specifications relating to the construction of each street or road."* The County will be held to this standard when building new roads.

Notably, up to this point, staff has received two (2) similar requests to deviate from the current road section or adhere to the preceding standard. The Commissioners Court denied both requests. Both private developments and subdivisions that will have county-maintained streets have had no issues adhering to the new road standard.

The Geotech report supports the County's argument that this road section is needed to minimized road failures stating, "*Based on our analysis, the pavement section with cement stabilized flexible base material over lime is about 1/3 stronger than the pavement section with 6-inches lime stabilized subgrade (1,100,000 ESALs/ 870,000 ESALs = 1.26).*"

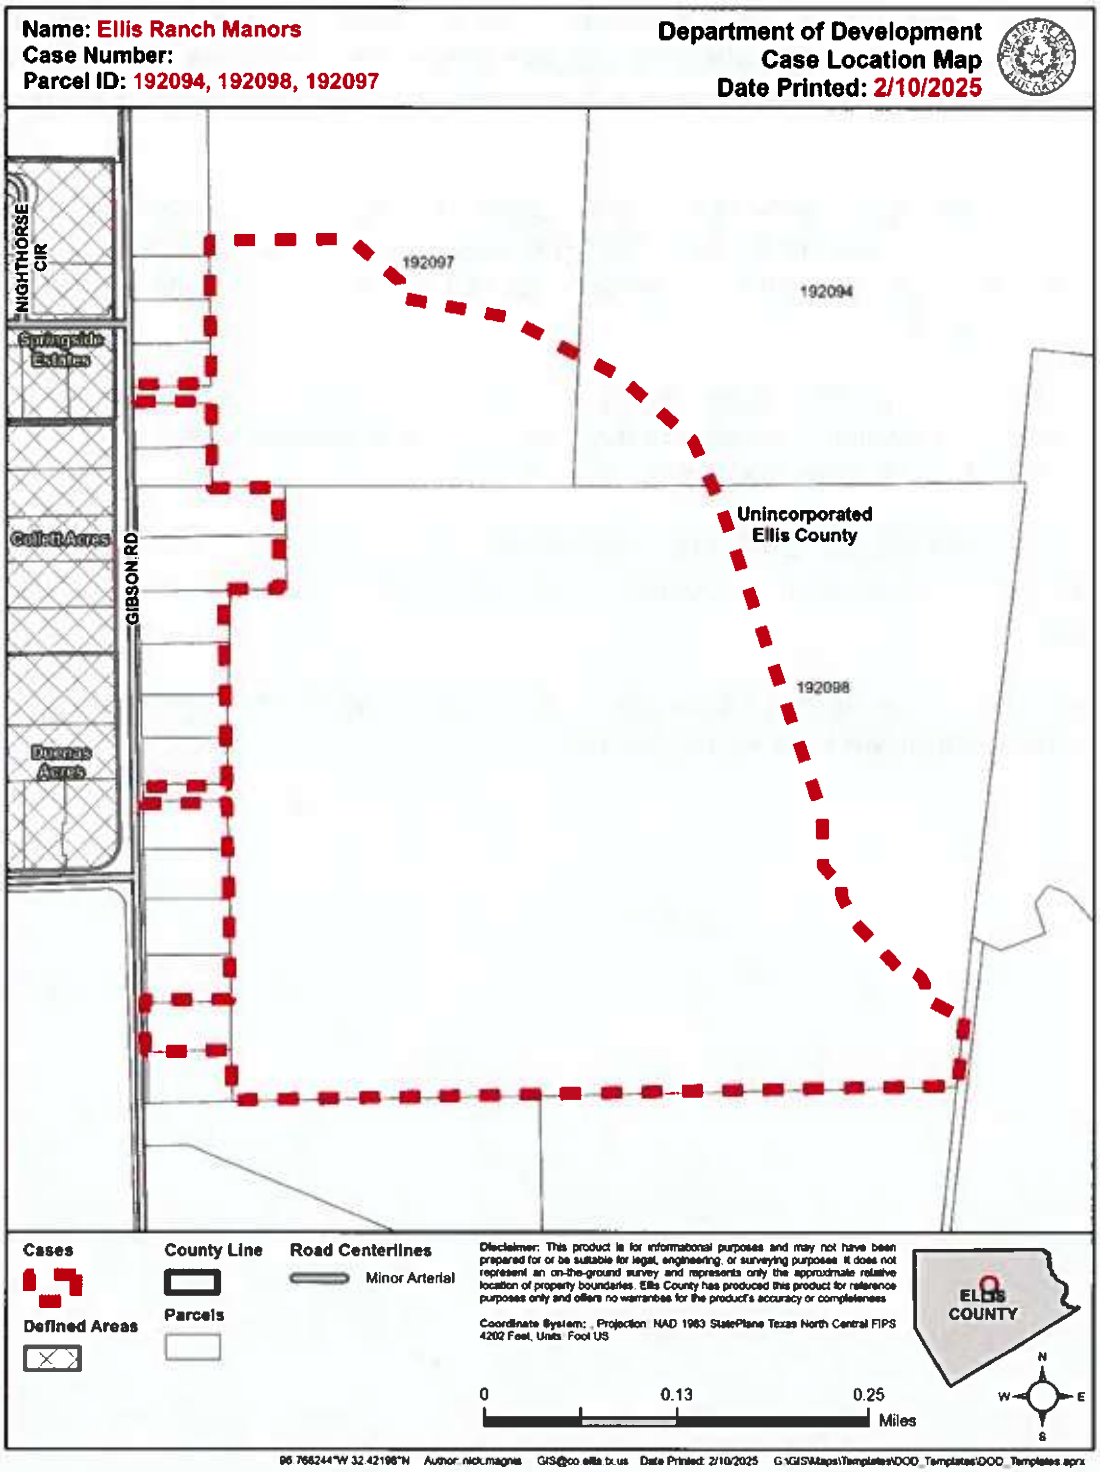

In addition, the geotech report states, "Based on the expected traffic on local residential roads, a 6-inch PCC pavement over 6 inches of cement stabilized flex base material over 6 inches of lime stabilized clay is not economical. Per the County's regulations, variances cannot be granted based on economic gain/loss or financial/economic hardship.

To uphold the goals and policies established by the Commissioners Court to improve road construction standards countywide through the adoption of those regulations and weighed against the criteria established in Section VIII (A) & (B), staff cannot support this variance request.

Therefore, staff recommends action in the following manner:

- **Denial** of the variance request to Volume III, Section IV (D) to waive the required cement-stabilized flexbase.

If this variance is denied, the applicant must submit civil plans that meet the County's current road standard before any construction activity is allowed on this site.

Re: Subgrade Standards for Roadways within Ellis Ranch Manors

Dear Mr. Mares:

This Firm represents GRBK Edgewood LLC ("Developer") , whose ownership includes the Ellis Ranch Manors subdivision on Gibson Road, north of FM 878 (the "Development") within the County. This letter addresses the County's request that Developer construct the streets within the Development using excessive subgrade materials. The County's recently adopted subgrade standards[1] (the "County Standard") are excessive and unjustified, and are not roughly proportional to the impact of the development on the County's roadway system.

Pursuant to that certain Preliminary Geotechnical Information (the "Geotechnical Report"), UES has evaluated the soils in the Development and has determined that a cross section for the streets within the Development consisting of 6-inches lime-treated subgrade under 6-inches of concrete pavement (the "Recommended Section") is sufficient for the Development.[2] The Geotechnical Report further indicates that the daily structural capacity of the Recommended Section is approximately 18 trucks[3] and at least 7,500 automobiles per day. When compared to the 405-605 vehicles per day that are expected to utilize the roadways within the Development, the Recommended Section is more than adequate.[4] Notably, these traffic counts are not expected to grow over time because the roadways within the Development are a closed system (i.e., there are no future extensions or connections planned for the Development).

The County Standard, on the other hand, requires an additional cement stabilized flexbase between the 6-inches of concrete and the 6-inches of subgrade, for a total pavement section thickness of approximately 18 inches. According to the Geotechnical Report, the County Standard

has a daily structural capacity of approximately 24 trucks[5] and at least 10,000 automobiles, which is approximately 26% "stronger" than the Recommended Section. But, because the Recommended Section already has ample structural capacity to carry the expected traffic through the Development,[6] the additional strength provided by the County Standard is without purpose and, according to UES, "not economical." By imposing the County Standard on the Development, the County is effectively requiring the Developer to "oversize" the roadways within the Development without compensating the Developer for the additional expense. As such, the County Standard, which is well in excess of Recommended Section, as well the typical sections adopted by the majority of cities and counties in north Texas, places an unnecessary and undue burden of approximately $826,700 in additional cost to the Development.[7]

Moreover, given the excessive nature of the County Standard and the degree to which it departs from well-settled, industry accepted criteria, it is entirely unclear how the County Standard promotes a legitimate public purpose. As applied here, Developer has shown that the Recommended Section is more than sufficient to convey Development related traffic with no detriment to the County or the safety of the traveling public. But even if the County could demonstrate a sufficient nexus between the County Standard and a legitimate public purpose, the imposition of the County Standard on this Development is nevertheless grossly disproportionate to the Development's impact to the County's roadway system. Again, the structural capacity of the Recommended Section is more than adequate to convey expected traffic through the Development. Requiring additional structural capacity to the roads within the Development via the County Standard when the Recommended Section has 90% excess capacity cannot survive scrutiny under the rough proportionality standard nor the takings clause of both the State and U.S. Constitutions.[8]

In light of the foregoing, the Developer respectfully requests the County withdraw the County Standard for the Development altogether. In the alternative, Developer requests that the County participate in the additional costs attributable to the County Standard at a rate of 100% pursuant to Section 232.105, Texas Local Government Code. If the County does not withdraw the County Standard or agree to participate in the additional costs, then the Developer will be forced to consider the filing of a rough proportionality appeal and claim that the County Standard constitutes an unlawful taking by the County.

Thank you for your attention to this matter. We look forward to a favorable resolution and are available for further discussion should you require additional information or wish to address any concerns. Please do not hesitate to contact me at (214) 745-5353.

[6] The Development is projected to utilize less than 10% of the structural capacity of the Recommended Section.

Re: Preliminary Geotechnical Information
Streets – Ellis Ranch Manors (100 Lots)
Off Gibson Road
Ellis County, Texas
UES Report No. G243064-A Revision 3

UES Professional Solutions 44, LLC (herein UES) is currently preparing a Final Geotechnical Exploration report for the referenced project as UES Report No. G243064. As requested, provided herein are preliminary pavement subgrade and design information for the proposed streets within the referenced residential subdivision. The previously submitted design information for streets (UES Report No. G243064-A dated December 17, 2024) is revised based on eight (8) additional lots.

The pavement subgrade and design information given in this report is developed based on 92 test borings performed as part of the referenced final geotechnical exploration. Laboratory testing is underway on select samples. Eight (8) additional borings (Borings 93 through 100) will be drilled on eight (8) additional lots. Once the laboratory testing is complete, a final geotechnical report will be issued for the proposed residences and streets. In case of differences in the recommendations between this preliminary report and the final report (yet to be issued), the recommendations in the final report shall control.

1.0 Site Geology

Based on geological atlas maps available from the Bureau of Economic Geology (Dallas Sheet), published by The University of Texas at Austin, and subsurface materials encountered within the test borings, the project site lies within the Ozan formation (also known as "Lower Taylor Marl"). The Ozan formation is composed of blocky structured clays and marl with some pyrite, phosphate nodules and limestone seams. Marl is generally present at greater depths. Residual clays associated with this formation have very high shrink/swell potential.

2.0 Pavement Subgrade Preparation

Clay soils encountered near the existing ground surface at the test borings, or similar materials used as engineered fill for grading will likely constitute the subgrade for the streets. Therefore, we recommend the subgrade soils should be improved (lime-treated) prior to construction of pavement for the proposed streets. To permit correlation between information from test borings and actual subgrade conditions exposed during construction, a qualified Geotechnical Engineer should be retained to provide subgrade monitoring and testing during construction. *If there is any change in project criteria, the recommendations contained in this addendum should be reviewed by our office.*

2209 Wisconsin St | Dallas, TX 75229 | ph 972-620-8911 | fax 972-620-1302

Calculations used to determine the pavement thickness are based only on the physical and engineering properties of the materials used and conventional thickness determination procedures. Related civil design factors such as subgrade drainage, cross-sectional configurations, surface elevations, reinforcing steel, joint design and environmental factors will significantly affect the service life and must be included in preparation of the construction drawings and specifications, but all were not included in the scope of this study. Normal periodic maintenance will be required for all pavements to achieve the design life of the pavement system.

After final subgrade elevation is achieved, the exposed clayey surface soils should be scarified at least to a depth as tabulated in Table A.

TABLE A

Street Classification	Depth of Scarification for Mixing with Hydrated Lime, inches	Lime Quantity*, lbs of lime per sq yard
Local Residential Streets	6	41

**Note: Lime quantities provided in this Table A are based on an in-place unit weight of 100 pcf for the pavement subgrade soils.*

The scarified soils should be blended with a minimum of 9 percent hydrated lime (by dry soil weight) depending on the plasticity of the resulting exposed subgrade. The hydrated lime should be mixed in conformance with TxDOT Item 260. Lower plasticity clay soils at the pavement subgrade may require about 6 to 8 percent lime. The actual amount of lime required should be confirmed by additional laboratory tests (ASTM C 977 Appendix XI) prior to construction to verify the resulting plasticity index of the soil-lime mixture is 15 or less.

It is recommended lime stabilization procedures extend at least 1 ft beyond the edge of the pavement to reduce effects of seasonal shrinking and swelling upon the extreme edges of pavement. The soil-lime mixture should be compacted to at least 95 percent of standard Proctor maximum dry density (ASTM D 698) and within the range of 0 to 4 percentage points above the mixture's optimum moisture content. In all areas where hydrated lime is used to stabilize subgrade soil, routine Atterberg-limit tests should be performed to verify the resulting plasticity index of the soil-lime mixture is 15 or less.

Lime treatment of the pavement subgrade soil will not prevent normal seasonal movement of the underlying untreated materials. Pavement will have the same potential for movement as slabs constructed directly on the existing soils.

Good perimeter surface drainage with a minimum slope of 2 percent away from the pavement is recommended. The use of sand as a leveling course below pavement supported on expansive clay soils should be avoided. Normal maintenance of pavement should be expected over the life of the structures.

The on-site soils can contain a sufficient quantity of soluble sulfates that can adversely react with hydrated lime added during the lime treatment process. Therefore, before committing to lime treatment, samples of the pavement subgrade soil should be tested for the quantity of soluble sulfates. Our office should be contacted regarding evaluation of the quantity of soluble sulfates

detected and any special processing/design features that may be applicable due to the soluble sulfate concentrations measured.

3.0 Portland Cement Concrete (PCC) Pavement

The structural capacity of a 6-inch PCC pavement over 6 inches of lime stabilized subgrade is summarized in Table B. This analysis was performed using the 1993 AASHTO pavement design procedures (WinPAS computer program distributed by American Concrete Pavement Association) and following subgrade improvement as recommended in Section 2.0.

TABLE B
PORTLANT CEMENT CONCRETE (PCC) PAVEMENT SECTION

Street Classification	Lime Treated Subgrade, (Inches)	Minimum Concrete Thickness Recommended (Inches)	Structural Capacity of Pavement	
			Lifetime 18-kip Equivalent Single Axle Loads (ESALs)	Approximate Equivalent Vehicle Volume/day*
Local Residential	6	6	870,000	18 Trucks and 7,500+ Automobiles

*Based on fully loaded 80,000 lb trucks and a 30-year pavement service life

- Portland cement concrete should have a minimum compressive strength of 3,600 psi at 28 days.
- Concrete should be designed with 4.5 ± 1.5 percent entrained air.
- Joints in concrete paving should not exceed 15 ft.
- Reinforcing steel should consist of No. 3 bars placed at 18 inches on-center in two directions.

UES should be contacted for additional pavement recommendations should the anticipated 18-kip ESALs for the streets exceed than provided. In addition, streets subjected to heavy construction traffic will be impacted more than the anticipated normal residential traffic volume. Normal periodic maintenance such as crack sealing and sealcoat will be required for all pavements to achieve the design life of the pavement system.

4.0 Subgrade Treatment and Pavement Section per Ellis County

We understand that Ellis County is considering a pavement section consisting of 6 inches of reinforced concrete over 6 inches of cement stabilized flexible base material over 6 inches of lime stabilized clay subgrade soil.

The structural capacity of a 6-inch PCC pavement over 6 inches of cement stabilized flexible base material over 6 inches of lime stabilized subgrade is summarized in Table C. This analysis was performed using the 1993 AASHTO pavement design procedures (WinPAS computer program distributed by American Concrete Pavement Association) and following subgrade improvement as recommended in Section 2.0.

TABLE C PORTLANT CEMENT CONCRETE (PCC) PAVEMENT SECTION – Ellis County				
Street Classification	Cement Stabilized Flexible Base Over Lime Treated Subgrade, (inches)	Minimum Concrete Thickness Recommended (inches)	Structural Capacity of Pavement	
			18-kip Equivalent Single Axle Loads (ESALs)	Approximate Equivalent Vehicle Volume/day*
Local Residential	6 inches Cement Stabilized Flexible Base Over 6 inches Lime Treated Subgrade	6	1,100,000	24 Trucks and 10,000+ Automobiles

*Based on fully loaded 80,000 lb trucks and a 30-year pavement service life

- Portland cement concrete should have a minimum compressive strength of 3,600 psi at 28 days.
- Concrete should be designed with 4.5 ± 1.5 percent entrained air.
- Joints in concrete paving should not exceed 15 ft.
- Reinforcing steel should consist of No. 3 bars placed at 18 inches on-center in two directions.

Based on our analysis, the pavement section with cement stabilized flexible base material over lime is about 1/3 stronger than the pavement section with 6 inches lime stabilized subgrade (1,100,000 ESALs /870,000 ESALs = 1.26). Based on the expected traffic on local residential streets, a 6-inch PCC pavement over 6 inches cement stabilized flexible base material and 6 inches of lime stabilized clay is not economical.

Re: Traffic Study for the Ellis Ranch Manors Development in Ellis County, Texas

It was requested that LJA prepare a technical memorandum summarizing the trip generation and distribution for Ellis Ranch Manors development.

Site Information

The Ellis Ranch Manors development is located east of Gibson Road near the intersection with Broadhead Road in Ellis County, Texas. In the figure below, the location of the proposed development and access is shown.

Figure 1 – Proposed Development Location

This proposed development consists of 100 single-family units on 1+ acre lots. This development will be served by two access points located on Gibson Road Boulevard as shown in the attached exhibit. Furthermore, this development will not share access with the remainder of the Ellis Ranch development. Thus, traffic on the proposed development's access roadways will not increase as other sections of Ellis Ranch continue to develop.

Existing Roadways and Traffic Volumes

West of the proposed development is Gibson Road, which is a rural 2-lane roadway approximately 22 feet wide and has a posted speed limit of 35 miles per hour. There are no roadways adjacent to the site along the north, south, or east edges.

Based on count data from the North Central Texas Council of Governments (NCTCOG), the ADT volumes on Gibson Road adjacent to the proposed site were less than 600 vehicles per day in 2019. Assuming an annual growth rate of 8 percent for the last 5 years, it is estimated that current ADT volumes are still under 1,000 vehicles per day.

Trip Generation

Preparation of trip generation/distribution for development related trips was done using trip generation rates from the current edition of the *ITE Trip Generation Manual*.

Table 1 - Vehicle Trip Generation Totals

Land Use (ITE Code)	Units	AM Peak Trips (vph)			PM Peak Trips (vph)			Weekday 24-hour Trips
		In	Out	Total	In	Out	Total	
Single-Family (210)	100	19	55	74	59	35	94	1,009
Total		**19**	**55**	**74**	**59**	**35**	**94**	**1,009**

As can be seen in the above table, this proposed phase of the development will generate approximately 1,009 daily trips (50 percent in and 50 percent out). In the peak hours, the development will generate a maximum of 94 trips during the PM peak hour (59 in and 35 out).

Trip Distribution

With the proposed development being east of Waxahachie and south of the DFW area, projected distribution of the trips will favor the west and north with 40 percent of the development traffic to and from west on Broadhead. Another 40 percent of the trips will be to and from the north on Gibson Road, and the remaining 20 percent will be to and from the south on Gibson Road. Projected trip volumes for Ellis Ranch Manors and the proposed access roadways are shown on the exhibit on the next page.

As can be seen in the figure, projected trips related to Ellis Ranch Manors will result in a minor increase in overall traffic on the adjacent roadways during the peak hours. For the development roadways, the projected ADT traffic volumes (underlined) are also shown in the figure below.

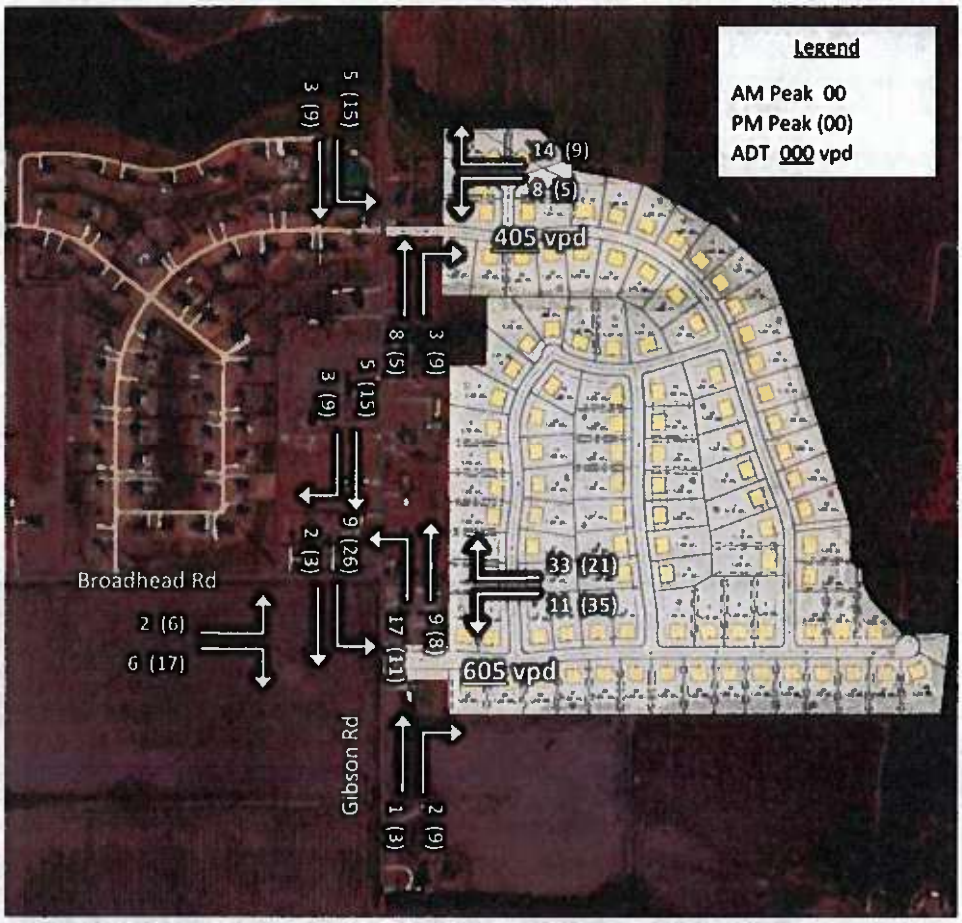

Figure 2 – Estimated Trip Distribution

Summary

Based on the information presented above, the proposed Ellis Ranch Manors development is not anticipated to have a significant impact on the adjacent roadways. Gibson Road has an estimated daily traffic volume of approximately 1,000 vehicles, based on NCTCOG data. With the proposed addition of development trips, Gibson Road will maintain 75% to 80% spare capacity (based on an estimated daily capacity of 10,000 vehicles per NCTCOG). Volumes on the proposed development's access roadways are not expected to exceed 700 vehicles per day and will not increase as the remainder of the development is built out given there is no connection to other sections of the development.

PROPOSAL & BACKGROUND INFORMATION:

- The applicant wishes to develop this ± 3.775-acre property and build an additional single-family residential structure. There is currently an existing residential structure on the property.
- A recent survey of the property shows that it has ± 43 feet of road frontage along Crisp Road.
- The current regulations require a minimum of 150 feet of public road frontage before any development on the property can occur.
- Unfortunately, because the property was illegally subdivided many years ago, this property cannot obtain 150 feet of public road frontage to meet the minimum requirement, and the only way to develop this lot is through approval of a variance.
- A variance approval is required from the Commissioners' Court before this property can be platted.

NOTICE REQUIREMENTS

Section VIII (A) requires notice to be sent to property owners within 200 feet of the property with the requested variance at least ten (10) days before the meeting date. Below is a summary of the satisfaction of that legal notice requirement.

DATE OF NOTIFICATION	NO. OF LETTERS
02/28/2025	Eight (8) letters

PERTINENT REGULATION(s):

Below is a summary of minimum County standards and the proposed request:

Relief Sought From:	County Dev. Standard:	Applicant's Request:	Difference:
Lots – Minimum Public Road Frontage	150 feet of public road frontage	± 43 feet	± 107 feet

Section VIII (B) relief from the rules and regulations:

1. *There are special conditions affecting the land involved such that the strict application of the provisions of this Order would deprive the applicant of the reasonable use of his land; and,*
2. *That the relief is necessary for the preservation and enjoyment of a substantial property right of the applicant; and*
3. *That the granting of the relief will not be detrimental to the public finances, health, safety, or welfare, or injurious to other property in the area; and,*
4. *That the granting of the relief will not have the effect of preventing the orderly subdivision of other land in the area in accordance with the provisions of the Order.*
5. *That the situation causing the hardship or difficulty is neither self-imposed nor self-created.*

FINAL ANALYSIS:

The property owners cannot meet the overall minimum road frontage requirements to make this a buildable property due to the current state of the property and the development of the surrounding properties, as stated in the Background Section. While variances are policy directives that the Commissioners' Court considers on a case-by-case basis, this request appears to meet the established variance criteria.

Should the Commissioners' Court decide to approve this variance request, staff recommends it be based on the following conditions:

1) The property owner or applicant shall submit a plat identical to the survey plat provided for the property with the variance application.
2) No further subdivision of this property shall occur until it can meet the subdivision requirements in effect at that time.
3) Approval of this variance request does not extend to multi-tenant, multi-unit, or any other commercial structures or businesses without meeting the requirements in effect at that time.
4) No more than 2 habitable structures (1 existing and 1 proposed) shall be allowed on this site.

Carmona Family
2307 Crisp Rd Ennis TX 75119

Dear Commissioners of the court,

We are the Carmona Family, and we come before you to ask for a variance on the property located at 2307 Crisp Rd, to where we currently reside. We are asking consideration variance for the regulation stating the lot must have one hundred and fifty foot of frontage touching the county road.

We have lived at this property since 2020 and have lived in Ennis since 2018. Moving here as a family of four, we have grown over the years to a family of six. Our hearts have grown to love this town and the people that reside in it. So much that my wife is now assisting with growing the minds of our younger generation and is employed with EISD. I am a project manager for Brandsafway located in Longview Tx and tend to be away from home quite often. I feel like my family is safe here and we love being apart of our community. This again is why I am here today.

We first acquired the property with a vision to plant our roots and start traditions with our young family. We started out by first living in a travel trailer on the property as we are purchasing it. However, when we first heard about this regulation, and we felt a little discourage because we have the vision to improve and build on the property. There was a fixer upper home already on the property just big enough for a family of five, so we considered rehabbing the old home. This was a slow process as we both work. As a few years passed, we were happy to find out a sixth will be joining us but living in a camper with a newborn would be exceedingly difficult. With a baby on the way, we went to work even harder. Within seven months, long nights, and any free time we had, we worked to restore the fixer upper house. We accomplished making it suitable for my wife and kids. With hard work we made it livable and comfortable to welcome our new bundle of joy. The family is now outgrowing the fixer upper house, and we are looking to continue our original dream for the property. We desire to build our new forever home here in Ennis on our property. Over the years we have found safety to raise our family here. We love our community along with our loving neighbors, especially on the long hauls where I must leave town for work. As a father and husband this is vitally important to me.

Our vision is to build a dream home for our family on the top of the hill overseeing the property. With plans on leaving the current house vacant for any family or friends to come visit. Family is important to us, and we would love to continue to make great memories and traditions on the property with our loved ones. The property is approximately 3.77 acres with forty foot of frontage touching the county road and the current house is approximately 1200 sq. ft. with three bedrooms and one bath. We desire to build a barndominium with ample of space to give each child their own space, along with us to have a space of our own. We will be going from a 3-bedroom with one bath to a 5-bedroom with 3 bathrooms. A bigger house plan is much needed, and we plan on making this our forever home. We plan on continuing to do upgraded to the property, as we have already made many improvements. I do not plan to rent the current fixer upper house that we currently live in now. I do not want anyone on the property that is not family, as my job takes me away from my family often.

The world we live in today is not the safest, but I want our children to find safety in our home. Our dream home would be a home my kids can grown up in and feel safe in. This would be a home they can make memories and share countless stories with each other when they grow older. Our home would be a home they can come back to and remember once they move out as grown adults. Our home will forever be the roots that strengthened them. Having the opportunity to build my family a home is utmost important to me and my wife. This property is what we want to call home for years to come.

So, my wife and I come to you today knowing this is the first stage of building our sanctuary. We hope to overcome this hurdle, just as we have tried to overcome every hurdle that has been placed in our life path. This vision is not something we plan to make happen overnight, but it is a vision we have longed for, believe in, and dreamed about. We found the safe and loving community that we have dreamed of here in Ennis TX.

I appreciate your time and consideration. I appreciate you serving our community by serving as our county commissioners.

Blessings,

Re: Variance Request

In August of 2024 we purchased approximately four acres of land located at 4490 Nancy Lane, Midlothian, Texas. Our children currently live in the house that is already there and we own. Our intent is to build a smaller home for the two of us toward the back of the property.

We are requesting this variance because evidently Nancy Lane is a private road so our property does not front on a public road or street. We believe the property does meet the frontage requirement of 150 feet as per our survey and Nancy Lane also meets the County's minimum road standards.

We appreciate your consideration in this matter.

Discussion, consideration, and action on a variance request to Volume I, Section IV (A) regarding the minimum public road frontage requirements for Parcel ID 181223. This ± 6.815-acre site is located ± 1,690 feet southwest of the intersection of Cement Valley and Miller Road, located in the extra-territorial jurisdiction (ETJ) of the City of Midlothian, Road and Bridge Precinct No. 4.

ATTACHMENTS:

2) Court Order

STAFF RECOMMENDATION:

- ☐ Approved, as presented
- ☑ **Approved w/ conditions (*See Analysis section*)**
- ☐ Deny request
- ☐ Continue/Table request

PROPOSAL & BACKGROUND INFORMATION:

- The applicant wishes to develop this ± 6.815-acre property and build an additional single-family residential structure. There currently is one habitable structure existing, which may be removed at a later date.
- A recent survey of the property shows that it has ± 0 feet of road frontage along Miller Road.
- The current regulations require a minimum of 150 feet of public road frontage before any development on the property can occur.
- The property is currently accessible through ingress/egress access easement over and across an adjacent property described in Volume 1151 Page 335 of the Ellis County Clerk records.
- Unfortunately, because the property was subdivided as a part of an unrecorded subdivision many years ago, this property cannot obtain 150 feet of public road frontage to meet the minimum requirement, and the only way to develop this lot is through approval of a variance.
- A variance approval is required from the Commissioners' Court before this property can be platted.

NOTICE REQUIREMENTS

Section VIII (A) requires notice to be sent to property owners within 200 feet of the property with the requested variance at least ten (10) days before the meeting date. Below is a summary of the satisfaction of that legal notice requirement.

DATE OF NOTIFICATION	NO. OF LETTERS
02/28/2025	Six (6) letters

Report Authored by: Elsa M Sieg – Planner I
Report Submitted & Approved by: Sara Garcia – Assistant Director; Alberto Mares, AICP, DR, CPM – Dir. of Planning & Development

PERTINENT REGULATION(s):
Below is a summary of minimum County standards and the proposed request:

Relief Sought From:	County Dev. Standard:	Applicant's Request:	Difference:
Lots – Minimum Public Road Frontage	150 feet of public road frontage	± 0 feet (access to property via an access easement)	± 150 feet

Section VIII (B) relief from the rules and regulations:

1. *There are special conditions affecting the land involved such that the strict application of the provisions of this Order would deprive the applicant of the reasonable use of his land; and,*
2. *That the relief is necessary for the preservation and enjoyment of a substantial property right of the applicant; and*
3. *That the granting of the relief will not be detrimental to the public finances, health, safety, or welfare, or injurious to other property in the area; and,*
4. *That the granting of the relief will not have the effect of preventing the orderly subdivision of other land in the area in accordance with the provisions of the Order.*
5. *That the situation causing the hardship or difficulty is neither self-imposed nor self-created.*

FINAL ANALYSIS:
The property owners cannot meet the overall minimum road frontage requirements to make this a buildable property due to the current state of the property and the development of the surrounding properties, as stated in the Background Section. While variances are policy directives that the Commissioners' Court considers on a case-by-case basis, this request appears to meet the established variance criteria.

Should the Commissioners' Court decide to approve this variance request, staff recommends it be based on the following conditions:

1) The property owner or applicant shall submit a plat identical to the survey plat provided for the property with the variance application.
2) No further subdivision of this property shall occur until it can meet the subdivision requirements in effect at that time.
3) Approval of this variance request does not extend to multi-tenant, multi-unit, or any other commercial structures or businesses without meeting the requirements in effect at that time.
4) Label existing access easement shall be shown at the time of platting to prove that it has ingress & egress onto the site.
5) No more than 2 habitable structures (1 existing and 1 proposed) shall be allowed on this site.

February 3, 2025

Dear Commissioners' Court,
I am requesting a variance be granted for the property located at 4786 Miller Road, Midlothian, TX 76065. The property consists of 6.815 acres with a double wide mobile home. The legal description in the Warranty Deed and Survey filed in 1995 include an ingress/egress easement. The easement is the only way to access the property, without it, the property is inaccessible.
Kevin and Eleanor Anderson bought the property in 1995. Both have passed away and as their daughter and the executor of the estate, I am selling the property. We have been told we need to file for a variance for the potential buyers to be able to build a new house on the property. They will be responsible for filing for the land to be re-platted.
We seek your approval for the variance so that the new buyers will be able to build.

Thank you,

Marcy Crow

Good Afternoon.

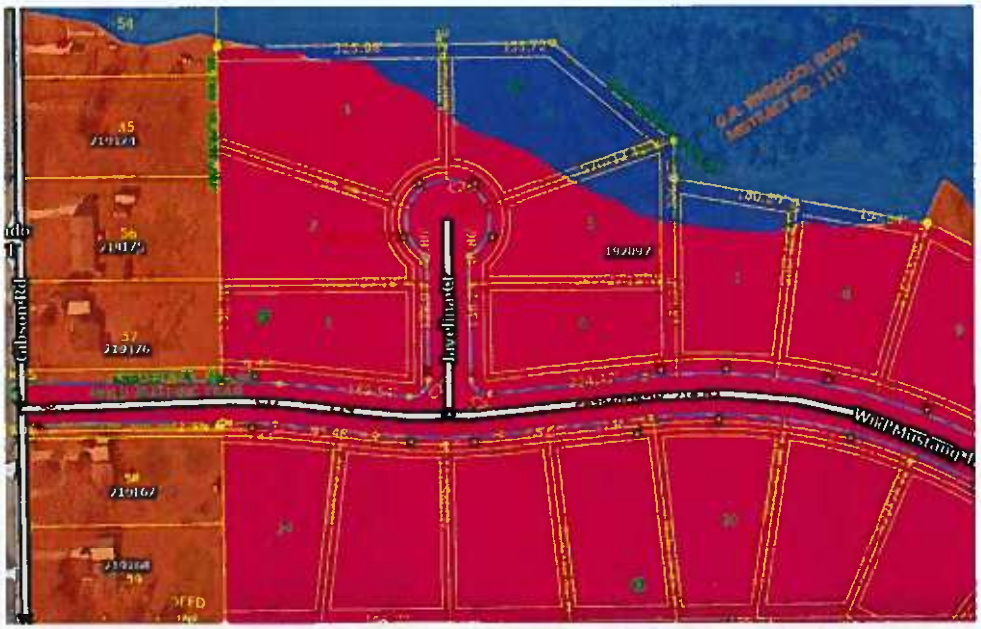

I wanted to follow up in regards to road names on this project. I just recieved the cad files from Development and had a chance to review the road name placement and the new road names.

We do have just two adjustments that will need to be made to the road naming here in order to remain consistent with the road name conventions for the county.

Our standard convention includes using Court as a suffix on cul-de-sacs. From the plans I received int looks like there are two such road segments.

Here, Clove Pink Court should be used for the last segment of road after the intersection of Clove Pink Trail and Wild Mustang Trail.

And here, the suffix should be Court again, so Javelina Ct.

Let me know if you have any questions

It will cost me around 15k to get the workers compensation per year. I also cannot get a $2,000,000.00 aggregate All Risk Cargo Insurance because I don't have more than 3 years of history on a policy. With that being said it's not worth me Paying that much for all

this extra coverage to not even profit enough to cover the expense.

(b) Comprehensive Commercial General Liability:
(1) Bodily, Injury/Personal, & Injury - $1,000,000 per occurrence $2,000,000 aggregate
(2) Property Damage - $1,000,000 aggregate
(c) Automobile liability

(d) Contractual liability - same limits as above

(e) All Risk Cargo Insurance - $2,000,000 aggregate

(f) Crime Coverage - $ 1,000,000 per occurrence

The COI you sent over earlier complies with the commercial general liability and the auto liability.

2272 FM 878, Waxahacie, Texas 75165

Architexas is pleased to submit this proposal for architectural services for selective renovations at the Juvenile Probation building located at FM 878 in Waxahachie, Texas. These services will be provided by Architexas with input and assistance by Juvenile Probation Services, who will assist in guiding the design team on your needs for the renovations in a cost efficient and functional manner.

PROJECT UNDERSTANDING
The County would like to renovate the following spaces for improvements to their function based on a site visit and follow up call. Refer to the attached floor plan modification sketch and mark ups based on the review call 1/31/2025:

- Secure Entry – Provide door to adjacent supervisor office to west. Remove existing hollow metal window unit and provide glazed sliding (shatter/vandal resistant) window between spaces to be used as transaction counter for paperwork processing. Writing surface to project into office to maintain clearances in entry.
- Existing Det. Ctr. Supervior to be renovated as intake and tele-medicine space. Maximize interior square footage by outswining the door into the interior secure entry to the south. Consult with Fire Marshal for review of door swing alternation. Account for two desk work spaces within the office. Provide detention door to secure entry to south.
- Renovate existing JP Courtroom as Education room. Add supervisor office.
    - Provide enclosed office for Detention Supervisor in northeast corner. Provide door to north hallway.
    - Provide detention (autolock) doors from education room at existing north door location.

If an arbitration proceeding is stayed pursuant to this section, the parties may nonetheless proceed to the selection of the arbitrator(s) and agree upon a schedule for later proceedings.

§ 7.2.3 The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in the place where the Project is located, unless another location is mutually agreed upon. 3. ARCHITEXAS verifies that: (1) it does not, and will not for the duration of this Agreement, have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association or (2) the verification required by Section 2274.002 of the Texas Government Code does not apply to this Agreement. If circumstances relevant to this provision change during the course of this Agreement, ARCHITEXAS shall promptly notify Ellis County, Texas.

4. ARCHITEXAS represents and warrants that: (1) it does not, and will not for the duration of this Agreement, boycott energy companies or (2) the verification required by Section 2274.002 of the Texas Government Code does not apply to this Agreement. 5. Funds for payment of this contract have been provided through the **County budget approved by Commissioners Court for this fiscal year only**. State of Texas law prohibits the obligations and expenditures of public funds beyond the fiscal year for which a budget has been approved. However, the performance of this contract may extend beyond the current fiscal year. The fiscal year for Ellis County extends from October 1 of each calendar year to September 30 of the following calendar year. It is the expectation of County that funding will be available to pay for the expenditures related to this Contract. Notwithstanding anything to the contrary within this contract, if at any time during the term of this contract the Commissioners Court of Ellis County, Texas (1) fails to provide funding for this contract during the following fiscal year at Ellis County, Texas; (2) does not adopt a budget for expenditures; (3) or is only able to partially fund the expenditures required by this contract, then Ellis County may, upon giving ARCHITEXAS written notice of such failure to fund and termination, terminate this contract, or part thereof, without any further liability, effective (30) days after Ellis County notifies ARCHITEXAS in writing of such failure to fund and termination. 15. In no event, shall any payment made by Ellis County or any act or omission of the Ellis County constitute or be construed in any way **to be a waiver by the Ellis County** of any breach or default of this Agreement. Neither shall any payment, act or omission in any manner impair or prejudice any right, power, privilege or remedy available to the Ellis County to enforce its rights, as such rights, powers, privileges and remedies are specifically preserved. No employee or agent of the Ellis County may waive the effect of this provision.

16. This Agreement is expressly made subject to Ellis County's **Sovereign Immunity,** Title 5, Texas Civil Practice and Remedies Code. 17. This Agreement is expressly subject to and contingent upon formal approval by the Ellis County Commissioners Court.

The parties are required to use due caution and preventive measures to protect against the effects of force majeure, and the burden of proving that a force majeure event has occurred shall rest on the party seeking relief under this provision. The party seeking relief due to force majeure is required to promptly notify the other parties in writing, citing the details of the force majeure event and relief sought, and shall resume performance immediately after the obstacles to performance caused by a force majeure event have been removed, provided the Contract has not been terminated. Ellis County Farm Master Plan

PHASE 3.1

The cornerstone to the site development is the addition of the Adult Probation Building. The Adult Probation offices are currently operating under strained conditions without adequate space for necessary expansion. This building would provide the department with the necessary operating space for both near and long-term growth.

The shooting range as planned is a needed addition to the County. All law enforcement within Ellis County are required annual firearms training and testing for certification and licensure as required by both local and state laws. The County currently does not have the required facility for this training, and all required to train, and test must travel outside the county for compliance training. The cost associated with off-site training can be considerable. This new shooting range would curb costs and potentially provide the County with a revenue generating facility should it allow other surrounding counties to use it for testing and training as well.

1.1 Description of Services/Introduction: The Contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform increased law enforcement services as defined in this Performance Work Statement, except for those items specified as government furnished property and services. The Contractor shall perform to the standards in this contract.

1.2 Scope: Ellis County Sheriff's Department (Contractor) agrees to provide a specific level of increased law enforcement services for that part of Bardwell Lake lying within Ellis County for the purpose of enforcement of State and local criminal and civil laws. (i) The offeror certifies that each end product, except those listed in paragraph (g)(4)(ii) of this provision, is a U.S.-made or designated country end product, as defined in the clause of this solicitation entitled "Trade Agreements".

(ii) The offeror shall list as other end products those end products that are not U.S.-made or designated country end products.

Other End Products:

Line Item No.	Country of origin
___	___
___	___
___	___

[List as necessary]

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) [____] Are, [____] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [____] Have, [____] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) [____] Are, [____] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [____] Have, [____] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products (Executive Order 13126)*. [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 and 13658 are not currently being enforced as to contracts or contract-like instruments entered into with the federal government in connection with seasonal recreational services or seasonal recreational equipment rental for the general public on federal lands. The minimum wage requirements of Executive Order 14026 also are not currently being

enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: $5.36 per hour, up to 40 hours per week, or $214.40 per week or $929.07 per month

HEALTH & WELFARE EO 13706: $4.93 per hour, up to 40 hours per week, or $197.20 per week, or $854.53 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor, 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least $27.63 per hour (or at least $684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

** HAZARDOUS PAY DIFFERENTIAL **

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to

this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of ""wash and wear"" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS **

The duties of employees under job titles listed are those described in the ""Service Contract Act Directory of Occupations"", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) **

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the ""Service Contract Act Directory of Occupations"" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."

Discussion, consideration, and approval of the Ellis County Vehicle Policy. - Chief of Staff Ryan Garrett

Document Number:

Revision Date: 3/11/2025

Minute Order:

I. PURPOSE

To increase efficiency in county governmental operations, the Ellis County Commissioners Court has adopted a policy which will maximize the county's vehicle resources. The purpose of this policy is to establish the county's guidelines in the assignment and use of county-owned vehicles, the designation of vehicle allowances, and authorized mileage reimbursement.

II. ROLE OF THE COMMISSIONERS COURT

The Commissioners Court, being the policy development and budgetary control unit of county government, shall be the final authority in determining the method of acquisition and the number of the county's vehicle resources. The Commissioners Court shall also be the final authority in determining the utilization of such vehicles by county departments under direct supervision of the Court. Elected officials shall determine the utilization of vehicles assigned to their departments by the Court. The vehicle allowance and mileage reimbursement rates shall be reviewed annually by the Commissioners Court during the budgetary process and set at the beginning of each fiscal year.

Budgeted replacement vehicles will not be added to a department's Fixed Asset inventory until the vehicles that are being replaced are transferred to surplus.

III. CATEGORIES OF VEHICLES

There are six (6) categories of county vehicles:

1. DEPARTMENTAL SUPPORT VEHICLES. Departmental support vehicles are vehicles which county departments utilize to accomplish the departments' objectives. These vehicles include, but are not limited to transport vehicles, law enforcement vehicles, supply vehicles, probation vehicles, pick-ups not utilized as precinct support vehicles, and other such vehicles.

2. DEPARTMENT HEAD VEHICLES. Department head vehicles are those vehicles which are utilized by county department heads in the performance of their managerial and departmental duties.

3. ELECTED OFFICIALS AND SUPPORT STAFF VEHICLES. Elected officials and support staff vehicles are those vehicles which are utilized by elected officials and their immediate staff in the performance of their duties.

4. FORFEITED VEHICLES. Vehicles seized by county law enforcement agencies are those vehicles which are legally seized and forfeited to the seizing county law enforcement agency by the appropriate judicial body.

5. GRANT VEHICLES. Grant vehicles are those vehicles which are purchased or leased solely by non-county grant funds and whose operation, upkeep, and insurance are paid for entirely by grant funds.

6. POOL VEHICLES. Vehicles held in reserve by the Purchasing Department which may be assigned on an as-needed basis.

IV. ACQUISITION AND ASSIGNMENT OF VEHICLES

1. The method of acquisition of vehicles, and the number of vehicles to be acquired using the general funds of the county shall be strictly controlled by the Commissioners Court through the budgetary process. Upon acquisition, the Purchasing Department will reflect the acquisition of the vehicles in the county's fixed asset inventory records. The number of vehicles assigned to departments, including those departments/offices headed by an elected official, shall be determined by the Commissioners Court through the annual budgetary process.

Vehicles acquired with funds that are not subject to the control of the Commissioners Court shall be added to the county's fixed asset inventory records at the time title to such vehicles is placed in the name of the county. Whenever these vehicles are sold, the proceeds from such sales shall revert to the funds from which they were purchased.

2. County-owned vehicles will be assigned only to those departments and officials/employees who must have access to an automobile to carry out their duties. All departments/elected officials with county-owned vehicles will provide Commissioners Court (or its designee) with a list of all departmental vehicles and vehicle assignments. Commissioners Court will make the final determination regarding the utilization of county-owned vehicles for the departments under its direct control and/or supervision and may require justification for the use of those vehicles at intervals to be established by the Court. The Commissioners Court shall determine the number of vehicles to be assigned to a department headed by an elected official during the annual budget process but once assigned county-owned vehicles, the elected official shall determine the utilization of the vehicles in the department under the elected official's control.

3. All officials/employees driving a county-owned vehicle must have a valid Texas Driver's License with a classification which allows for operation of the assigned vehicle. If during employment an official/employee loses his/her driver's license due to suspension or non-renewal, the official/employee shall immediately notify his/her department head/elected official. It shall be the elected official/department head's responsibility to ensure that each of his/her employees possess a valid Texas Driver's License with the proper classification to operate the employee's assigned vehicle. Improper use of a county vehicle shall be subject to disciplinary action. Improper use shall include, but is not limited

to, a) having three (3) or more moving violations assigned against your drivers' license over a three (3) year period; b) driving a county vehicle while intoxicated as defined by §49.01 of the Texas Penal Code.

4. Vehicles which are assigned to individual officials/employees may be taken to the employee's primary residence only if:

A. The department head/elected official has approved the assignment; and

B. The official/employee's commute from their residence to their primary county office does not exceed a radius of fifty (50) miles; and

C. The official/employee utilizes the vehicle at least 40% of the time during his normal working hours; or

D. The official/employee frequently departs his primary residence and goes directly to a job site without first coming to the official/employee's primary county office.

All other vehicles must be parked on county property outside of working hours.

5. All assignments of county vehicles to a department under the direct control and/or supervision of the Commissioners Court shall be considered temporary subject to review and revocation at any time. The number of county vehicles assigned to a department headed by an elected official shall be reviewed during each annual budget process. Each department/elected official shall maintain a listing of those officials/employees authorized to take a county vehicle to the employee's primary residence and a copy shall be furnished to the County Treasurer and Purchasing Department. Vehicles may be used only for work-related duties and to drive to and from work. They may be used for no other purpose except in an emergency or for trips completely incidental to county employment or driving to and from a county-related job site or exception under Section IV.6 Personal Use. During this limited basis commute or exception, the official/employee is fully covered by the county's auto liability and physical damage insurance policy and is not required to carry supplemental insurance.

If an official/employee uses a county vehicle to commute to and from their primary residence, the fringe benefit use of said vehicle shall be included as taxable income of the official/employee in accordance with Internal Revenue Service Commuting Valuation Rules. Marked vehicles used by public safety officers to commute to and from work are considered as qualified non-personal vehicles and the use of such vehicles is not considered taxable income. The term "public safety officers" means law enforcement officers, firefighters, chaplains, members of rescue squads or ambulance crews, and disaster relief workers (28 CFR Part 32 §32.3). Unmarked vehicles used by law enforcement officers are also considered as qualified non-personal vehicles and the use of the vehicles by such personnel to commute to and from work is not considered as taxable income. The term "law enforcement officer" means an individual involved in crime and juvenile delinquency control or reduction, or enforcement of the criminal laws (including juvenile delinquency), including but not limited to, police, corrections, probation, parole, and judicial officers (34 U.S.C. § 10284(9). Use of either a marked or unmarked vehicle by a person who is not a public safety officer would be considered as taxable income.

Only county officials/employees/volunteers, duly commissioned reserve officers authorized by the County Sheriff or Constable, Fire Marshal, or officers assigned to special operations and/or task force units approved by Commissioners Court, are authorized to drive a county vehicle. A list of duly commissioned reserve officers authorized by the County Sheriff, Constable, or Fire Marshal to drive a county vehicle shall be maintained by the respective department head/elected official and a copy kept by the Risk Management Division of the Human Resources Department.

6. Personal use of county vehicles is governed by the following:

A. At no time may a county vehicle be used for personal gain, personal business, to drive to a place of secondary or part-time employment not related to county business, or for any other non-county-related use. Employees of law enforcement officials or magistrate (as defined by the Code of Criminal Policy 2.09) must comply with guidelines established by those elected officials pursuant to Attorney General Opinion number GA-0480.

A county law enforcement official/employee/magistrate assigned an unmarked vehicle may use the assigned vehicle for personal reasons during normal work hours, when called in to work and/or during the commute to and from a work site.

B. Officials/Employees are not permitted to perform or be involved in political campaigning or related activities, whether paid or voluntary while using a county vehicle.

C. Officials/Employees who are on an "on-call" status may utilize their county vehicle for personal matters on a limited basis to satisfy the requirements of being "on-call". This limited basis will be determined by the employee's department head or elected official.

D. An employee in any county department under the direct control and/or supervision of the Commissioners Court, who knowingly violates the provisions of this section, shall surrender his/her county vehicle to the Purchasing Department. However, prior to the department surrendering the vehicle to the Purchasing Department, the County may authorize the department to maintain temporary control of the vehicle until the review process, as described in Section IV. 5, is completed if the County determines that the vehicle's usage is essential to the department's operations. The Commissioners Court may consider violations of this Section on a case-by-case basis to determine if the vehicle should be permanently removed from the violating department's inventory. While conducting the review to determine the final disposition of the vehicle, the Commissioners Court may consider what personnel action has been taken against the individual employee who violated this Section, what restrictions have been placed on the future use of the vehicle by the employee, what the overall impact would be to the department's operations if the vehicle were removed from their inventory and any other criteria which the Commissioners Court believes is relevant to their review.

In the event the affected county department is headed by an Elected Official, excluding Commissioners Court, said Elected Official, in lieu of the County Judge and/ or Commissioners Court, shall have the exclusive authority to make the authorizations and determinations in accordance with under this section IV. 5.

E. During this limited basis commute or exception, the official/employee is fully covered by the county's auto liability and physical damage insurance policy and is not required to carry supplemental insurance.

7. Allowed passengers in county vehicles are: a) anyone in the care and custody of a law enforcement official; b) county employees; c) a non-employee travelling with an employee under Section IV.6 Personal Use or during county related business; and d) any person in need of transport due to a medical emergency.

8. In the event of an accident involving a county-owned vehicle being used by a county official/employee in violation of this policy, the County official/employee will be fully liable for all damage and/or injuries sustained to all parties in the accident.

9. All drivers of county-owned vehicles, and those using their personal vehicles on county business, shall comply with all applicable State and local laws. It will be the responsibility of the driver to pay any fines imposed for not complying with such laws.

10. An employee may not be assigned a department support vehicle as a take-home vehicle unless specifically authorized under this Section IV.

11. A department head may be assigned a department vehicle and use it as a take-home vehicle if the Commissioners Court determines that the vehicle is an essential tool needed to perform his duties and if the department head is subject to a continuous on call status.

12. A pool vehicle may be used for out-of-county trips for official county business, as a temporary replacement for an assigned but wrecked or disabled vehicle, or for other county business subject to authorization and approval by the employee's supervisor and/or department head/elected official.

13. If the county-owned vehicle is driven out of the county on official business, actual gasoline and repair expenditures shall be reimbursed upon proper documentation and department head/elected official approval.

14. No county-owned vehicle shall be used for out-of-state travel, or otherwise removed from the boundaries of Texas, without such trip or use being first formally approved by the department head or elected official, and that any use of such a vehicle without the approval required herein shall subject the user, the department and the vehicle to the results and consequences that are prescribed in the Ellis County Vehicle Policy for an unauthorized or unapproved use of county-owned vehicles. (This does not apply to law enforcement officers while on official duty, such as prisoner transport).

V. VEHICLE ALLOWANCES AND MILEAGE REIMBURSEMENT

1. The Commissioners Court may grant a vehicle allowance to any official/employee deemed appropriate. Generally, a vehicle allowance shall be granted as additional compensation for the official/employee.

A vehicle allowance is a fixed monthly monetary payment to an elected official/employee for which the elected official/employee does not have to account or refund any portion thereof to the county. The vehicle allowance will be paid on one payday of the month and will be subject to FICA, TCDRS and Federal Income Tax withholding.

Mileage reimbursement will be processed consistent with Personnel Policy #8.3, Mileage Reimbursement.

2. Although they are included as taxable compensation, fixed vehicle allowances are not included as wages for the purpose of the county's pay for performance or any other percentage driven compensation system. However, after the initial car allowance is set, the amount of the allowance may be adjusted at the beginning of each fiscal year by an amount equal to the percentage change in the IRS rate for mileage reimbursement existing at the beginning of the fiscal year from the rate in effect at the beginning of the prior fiscal year. The amount of the allowance, as adjusted, may be rounded down to the nearest whole dollar.

VI. VEHICLE SAFETY

1. Each person assigned a county vehicle shall maintain a copy of this policy in his/her assigned vehicle for reference.

2. Employees shall operate all vehicles in accordance with its designed use, taking into consideration traffic and conditions surrounding the use of the vehicle, and the safety of others.

3. All drivers of county vehicles shall comply with all state, county and local rules and regulations governing the safe and legal operation of vehicles.

4. Seat belts shall be worn and secured at all times when the vehicle is moving.

5. The driver shall be responsible for assuring that all passengers are seated and properly secured before moving the vehicle. Under no circumstances shall passengers ride on fenders, running boards, the tops of vehicles, or any place not designed for passengers. Employee drivers are responsible to secure all doors and check seat belts prior to moving the vehicles. Extra caution should be used when closing sliding doors on vans or other vehicles.

6. Trucks transporting materials shall secure said material tightly to prevent movement in transport. All cargo that extends beyond the end of the bed shall be clearly marked with a red cloth not less than sixteen (16) inches square. At night, red lights shall be used.

7. Lights, brakes, and other vehicle equipment shall be checked regularly to verify proper working order. Any malfunction of the vehicle shall be reported to the immediate supervisor and arrangements for repairs shall be made immediately.

8. If a vehicle is found to be unsafe, proper repairs shall be made before it is placed back in service no matter how urgent the need is for the vehicle.

9. All county employees/drivers are required to drive defensively and observe all traffic laws.

10. All county employees/drivers are required to always be courteous to all other drivers.

11. Flashing lights shall be turned on and traffic cones in place whenever a vehicle or piece of equipment is stopped where work is being performed, or whenever it obstructs traffic. Vehicles and/or equipment shall not be parked where they obstruct traffic unless it is absolutely necessary.

12. Whenever backing up, be positive about what is behind you even if it requires getting out of the vehicle to look.

13. Remember that a driver is held responsible for the vehicle he/she is driving, any passengers riding with the driver, and the load he/she is carrying.

14. During any hauling operations, loads shall be tarped whenever designated by the immediate supervisor.

15. Operators must constantly be aware of surrounding conditions, (i.e. ground personnel, overhead lines, pedestrians and other hazardous conditions).

16. All vehicles shall be properly parked and secured before being left unattended at the end of the day. Keys shall not be left in any unattended vehicle.

17. All tailgates will be secured (closed) while traveling.

VII. USE OF PERSONAL VEHICLES

The use of personal vehicles by county officials/employees in conducting official county business is frequently necessary. A mileage reimbursement or vehicle allowance is a part of this policy to address this type of use. The use of any personal vehicle, excluding cars and trucks, is expressly prohibited without prior approval of the Commissioners Court or the appropriate elected official.
