LONESTAR INVESTMENT POOL

The LoneStar Investment Pool is an investment pool available to government entities, in full compliance with the Public Funds Investment Act. Ellis County participates in 2 of the 3 available funds, the Government Overnight Fund and the Corporate Overnight Fund. Both Funds are rated AAA by Standard & Poor.

The Government Overnight Fund invests in the following:

- Obligations of the United States or its agencies and instrumentalities
- Other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the United States or its agencies and instrumentalities
- Fully collateralized repurchase agreements that meet the following criteria: (1) have a defined termination date; (2) are secured by obligations of the United States or its agencies and instrumentalities; (3) require the securities being purchased by the Government Overnight Fund to be pledged to the Government Overnight Fund, held in the Government Overnight Fund's name, and deposited at the time the investment is made with the Government Overnight Fund or with a third party selected and approved by the Government Overnight Fund; and (4) are placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state. The market value of repurchase agreement collateral is required to initially be 102 percent of the principal amount of such repurchase agreement. Thereafter, the market value of such collateral will be determined (marked-to-market) daily and reset to 102 percent of the principal amount if it falls below 100 percent.
- No-load money market mutual funds regulated by the SEC, provided the Government Overnight Fund shall not invest its funds in any one money market mutual fund in an amount that exceeds 10 percent of the total assets of such money market mutual fund.

The Corporate Overnight Plus Fund may invest in all securities authorized under the Investment Act. However, it is the Board's policy to have these additional restrictions:

- The Corporate Overnight Plus Fund shall not invest its assets in any one nongovernmental issuer in an amount that exceeds 5 percent of the total fund assets at cost.
- If an A-1 or P-1 investment is placed on the watch list with negative implications by a rating agency, the investment manager must sell the investment within one week.

BROKER DEALER SERVICES DIVISION
PRICING, INDICATIVE DATA AND OTHER DISCLOSURES

—
—
—
The prices of financial assets and indicative data reported or reflected in reports furnished by the Broker Dealer Services Division (BDS) of The Bank of New York Mellon (BNYM) generally are provided by data providers and ratings agencies ("vendors") used by BDS in the ordinary course of business. Trust receipts will be valued based on the face amount of the underlying financial assets, as set forth therein. Prices and indicative data are not independently verified, and may contain errors or omissions.

With respect to certain newly issued financial assets, if vendors do not provide prices, such financial assets will be valued at par or the new issue price for up to three business days. Thereafter, such financial assets will be valued at zero.

With respect to certain financial assets other than new issues, vendors may not provide prices and may not update prices previously provided on a regular basis. If vendors do not provide prices or update previously reported prices within three business days, such financial assets will be valued at zero, unless other arrangements are agreed in writing.

Notwithstanding the foregoing, certain hard-to-price, thinly traded or illiquid financial assets are valued monthly with no adjustment during the interim period (details are available upon request by contacting BDS).

Although BNYM will not utilize prices obtained from brokers or dealers in providing services, BNYM may obtain from any broker or dealer prices and other information and data such as offering memoranda, observable and non-observable information and assumptions in order to assist BNYM's vendors in determining prices of particular financial assets.

With respect to certain financial assets that are not widely held or regularly traded, vendors may report prices based on valuation models which reflect underlying non-observable assumptions that may not be accurate or complete and such models and/or prices may not be regularly adjusted.

The prices reported by BDS may differ from the prices reported or used by other divisions of BNYM or its subsidiaries or affiliates, and such differences may or may not be material. Margin values reported in connection with triparty transactions may differ from margin values used by BNYM for its own account or for the account of its subsidiaries, affiliates or other clients.

Unless otherwise agreed in writing, financial assets held as collateral may include financial assets in default, provided that the prices of such financial assets are made available to BNYM by a vendor which BNYM uses generally for valuing such financial assets.

BNY MELLON

Unless otherwise agreed in writing, financial assets held as collateral may include financial assets issued by your transaction counterparty or its subsidiaries or affiliates.

Average Traded Volume data is obtained from primary or secondary securities exchanges.

Market data, which is subject to availability, may or may not be current.

The information reported or reflected herein is proprietary to its suppliers and is for your internal use only. It may not be copied, reproduced, published, posted, transmitted, displayed, stored, modified, sublicensed, transferred, disclosed or distributed or used for any purpose without BNYM's express written permission or that of its vendors or other third parties, as applicable.

REPORTED PRICES, WHETHER PROVIDED BY VENDORS OR OTHERWISE OBTAINED AS DESCRIBED HEREIN, MAY NOT REFLECT THE ACTUAL AMOUNT THAT CAN BE REALIZED UPON THE SALE OF PARTICULAR FINANCIAL ASSETS.
